This form is designed for students who experience physical, developmental, intellectual or mental disabilities who would be more comfortable with a delegate assistant for conference. A delegate assistant is a friend for the day of conference, who will assist the delegate and help them strive and maximize their participation during various activities such as skill-building sessions, group activities, etc. Note: A delegate assistant is not an EPA, they are a high school student who will be there to grow with the delegate during the course of the day. If the delegate requires an EPA for the day, the EPA can attend conference as an advisor.
